

B. BUYING A DECORATED CAKE OPTION

1. Buy a pre-decorated 8, 9, 10" cake. It works better to not have a lot of frosting or decorations at the bottom of the cake.
2. If buying a cake, ask the bakery if you can have a small container of extra frosting.
3. Carefully slide the decorated cake on top of the TMC plate (make sure the spout is **not** attached).
4. Lift-up the plate, cut a slot in the cake using the plate slot as a guide.
5. Measure and choose one spout. Lift up the plate and push spout through the plate slot and snap into place.
6. Follow steps 2 and 3.

C. USING YOUR IMAGINATION

1. Make your design on top of the plate.
2. Suggestions: Candy bars for a retirement, a diaper display for a baby shower, stack rolls of towels for a house warming gift, Champagne and roses for a wedding, A teddy bear display for a new baby announcement, etc.
3. Follow steps 2 and 3.

D. NOTES

1. There are 150 sleeves. If you want more than 150 one dollar bills, be creative and use 5's, 10's, 20's, 50's, 100's, etc. If you need more bags, order online.
2. In addition to money, you can place checks, gift cards lottery tickets, stickers and/or flat toys that fit in the money sleeve rolls.
3. **Optional:** You can place an index card the very last sleeve stating who TMC gift is from.
4. ***Optional:** If you use the template as the cake top, tape it to the sleeve and fold the edges so it sits level on the cake.
5. **Hint:** To frost easier over the open slot, you can either cut a small piece of paper or saran wrap and place it on top of the open slot and then frost over. Make sure to puncture a hole in the paper or saran wrap.

If you have any questions, feel free to do any of the following:

1. Check the FAQ's on the website at <http://www.themoneycake.com>

THE MONEY CAKE™ KIT DIRECTIONS

The Money Cake (TMC) kit is designed to hide a roll of dollar bills inside a cake stand (comprised of a plate, ring and base). A spout provides a path to easily pull the roll of bills through a cake or other party item from the hollow cake stand. Ideally, a cake is placed on the cake stand and a spout is slipped through a slot cut into the cake. Essentially cake hides the spout and the stand hides the roll of bills.

INCLUDED IN THE KIT:

- ❖ PLATE
- ❖ RING
- ❖ BASE
- ❖ 3 SPOUTS
- ❖ 3 MONEY SLEEVE ROLLS
 - 50 SLEEVES PER ROLL
- ❖ 1 TEMPLATE

Step 1: Make a Decision Cake or ?

Decide what will go on the plate. Bake or buy a cake or ask a bakery to place a cake on the plate and cut the slot for you **OR** cover the spout with candy bars, popcorn, towels, diapers or other party items (use your own imagination).

Step 1: Continued

Center cake on TMC plate.

Cut opening for the spout in the cake.

See note B4

Snap in appropriate spout.

See note B5

Step 2: Adding money to the sleeves and using the base

Insert money in the sleeves.

Tape the center of each sleeve to secure the money. **Note:** Ask for brand new bills and the money should stay secure without tape.

Tape template to first money sleeve & add ribbon.

Fold the template and cut a small slit. Take a long ribbon and put it through the slit. Tie a knot.

Put money in base

Lay the roll of money in the cake base in folds (zig-zag pattern) so that be bills are on top of each other.

Step 3: Assemble the kit

Assemble the plate, ring and base

Lift up the cake plate and insert the template with the ribbon through the top of the spout. Lower the top plate onto the ring and base when finished.

Place the plate on top of the base.

Adjust the ribbon so that you can attach a cake top decoration to it. **Optional:** See note D4.

Finish decorating!
The surprise is ready!

Now you're ready for the BIG SURPRISE!

WATCH AND ENJOY!

A. BAKERY OPTION

1. Take the cake top plate with the spout and ask the bakery to cut the slot in the cake for you. (You might need to explain this part to the baker if they are unfamiliar with this kit). Also, ask for a small container of extra frosting.
2. When you pick up the cake, take it home and follow steps 2 & 3.
