

Step 8
 Hold the template and feed through the spout. Pull ribbon and attach to cake top decoration or anything that you want your guest to pull on. Lower the plate onto the base. Watch and Enjoy!

Step 7
 Decide what to put on plate: Cake, pie, candy or popcorn display, towel or display, gift bag, etc.

Step 6
 Then slide the spout (money feeder) through the slot in the top piece. Make sure it's locked into place.

Step 5
 Decide which spout to use. Hold in the other hand.

Step 4
 Hold plate in one hand. Note: If using a cake, cut in 1/2 then place cake on top in step 7.

THE MONEY CAKE™ KIT DIRECTIONS

Step 1
 Place the base on a flat sturdy surface. Add the ring.

Step 2
 Insert money in the sleeves (start with 2nd sleeve) and place inside the base by folding in a zig zag pattern or roll tightly.
 Note: It's best to use brand new bills. If not available, use a small piece of tape to close the center of the open side of sleeve. This will prevent the contents from sliding out.

Step 3
 Cut template out. Fold template together, then fold horizontally above words and cut small slit for ribbon. Place long ribbon through slit. Attach template to 1st sleeve (empty) using tape.

NOTES

There are 150 sleeves. If you want more than 150 one dollar bills, be creative and use 5's, 10's, 20's, 50's, 100's, etc. If you need more bags, order online.

In addition to money, you can place checks, gift cards lottery tickets, stickers and/or flat toys that fit in the money envelope bag.

Optional: You can place an index card the very last sleeve stating who TMC gift is from.

***Optional:** If you use the template as the cake top, tape it to the the slot and fold the edges so it sits level on the cake.

Hint: To frost easier over the open slot, you can either cut a small piece of paper or saran wrap and place it on top of the open slot and then frost over. Make sure to puncture a hole in the paper or saran wrap.
